

Lawrence 3-8 School's Mission

“To create and develop the full potential in every student by embracing their culture, and finding success in academics, personal growth, and life skills by being involved in teamwork and collaborating with others. “

VILs Coach Mission

As the VILs coach at Lawrence, my goal is to ensure teacher and student comfortability regarding technology by providing support and resources during class time and scheduled meetings. Giving this support for students and teachers will increase engagement in the classroom and encourage a curiosity in STEM subjects.
